

**Dear quantum innovation friends,**

QSIP is establishing itself as national innovation platform. The community is growing, and we are pleased to see that more and more organisations are connecting to our activities.

We are now forming the **QSIP Investor Network, QuSIN**, which will be a forum for investors to learn about the field, its potential and characteristics, but also to facilitate co-investments. The first meeting will take place on **May 29**.

Spreading information about quantum innovation activities is important for connecting people in the community. Don't miss our **monthly lunchtime webinars**. The next is taking place on **April 22, 12:00-13:00**, where the Quantum Technology Hub in Stockholm and related quantum start-ups will introduce themselves.

QSIP has two major events that we are investing a lot of effort into this year: **IQT Nordics 2024**, in Helsinki on June 24-26 and the **QSIP Annual Day** in Göteborg on August 27. Hope to see you there!

More information about these events can be found below.

If you are not already subscribing to this newsletter, please sign up via our [website](#).

You may also receive useful information if you follow us on [LinkedIn](#).

If you have quantum-related news that you would like to spread, please contact us at [info@qsip.se](mailto:info@qsip.se)

Quantum Innovation Future**

## QSIP ACTIVITIES AND EVENTS

**Webinar:** “Quantum Technology Hub (QTH)”, at 12.00-13.00 on April 22. Presentation of QTH and the related start-ups Intermodulation Products and Svenska Laserfabriken. For registration and more information, please see [here](#).

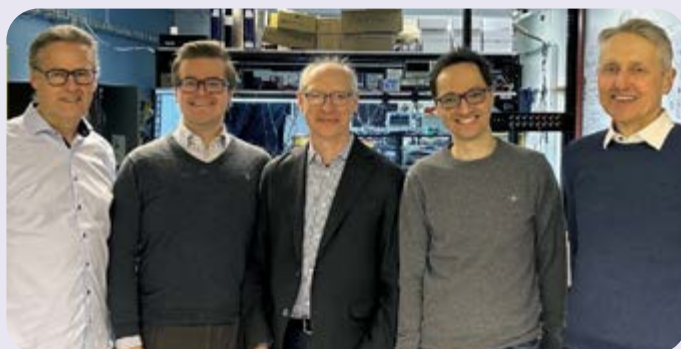

**SAVE-THE-DATE: QSIP Annual Day, Gothenburg, August 27, 2024.** Remember to book a visit to Gothenburg for the QSIP Annual Day on August 27. At this full day meeting you will hear presentations from companies, authorities, investors, and international initiatives in the field and learn more about the rapid development in quantum applications and business. We will also have a session entitled “Quantum Meets Capital” where the QSIP Investor Network (QuSIN) and start-up companies/innovation projects will have the opportunity to meet. Program and registration link will be available on the website starting in April.

More information to follow in our next newsletter.

**QSIP Investor Network Meeting (QuSIN):** At the first digital meeting on **May 29** there will be a Quantum-for-investors presentation given by Robert Rehammar – a researcher from Chalmers with experience creating quantum tech companies; a presentation of investment experiences in quantum-related companies by Jussi Sainiemi from VOIMA Ventures; and a round-table discussion on the drivers and difficulties of investing within this technology field. The meeting is open for investors, please register [here](#).

**Quantum Communication Workshop, Stockholm.**  
**On June 4,** KTH, Ericsson, NQCIS and QSIP will arrange a workshop on Quantum communication and related applications in Stockholm. More information on this and registration to follow.

*QSIP on tour: Exciting day at LiU meeting with Arne Jacobsson, Sebastian Argillander, Jan-Åke Larsson and Guilherme B. Xavier.*

**QSIP Sweden tour;** in order to learn more about quantum activities and needs around Sweden, we have during Q1 left Gothenburg and visited Karolinska Institutet and QTH/KTH in Stockholm, Linköping University, and Lund University (including a visit to Danish Quantum Community in Copenhagen). It has been very valuable for us to meet with researchers, spin-offs and innovation system actors to learn more about how QSIP can stimulate and support quantum innovation. Thank you for hosting us!

---

## EXTERNAL EVENTS

*Tour of quantum computing facilities at Chalmers by Jonas Bylander at WACQT Industry Day.*

QSIP attended and presented our activities on the **WACQT Industry Day** on March 20. The full day workshop was comprised of very inspiring presentations from academia and industry, interesting discussions and a strong impression that Swedish industry is increasing its commitment and activity level in Quantum Technology. Thank you, WACQT, for arranging this!

.....

At [IQT Nordics 2024, Helsinki June 24-26](#), QSIP will have an exhibition area (Quantum Sweden Pavillion) where Swedish start-ups will have the opportunity to exhibit and meet potential customers and collaboration partners. In collaboration with Vinnova, we are pleased to offer conference admission and exhibition space free-of-charge to Swedish start-ups/SMEs. Information on this offer has been sent out to relevant companies. **Please register your interest ASAP, but no later than April 22 at [info@qsip.se](mailto:info@qsip.se).** Space is limited but we will try to make room for as many SMEs as possible.

If you attend IQT Nordics in Helsinki, you may be interested in **visiting the VTT quantum tech facilities**. On the morning of June 27 between 9-12, we are arranging a group visit to VTT. Please register your interest to attend the visit by sending an e-mail to [info@qsip.se](mailto:info@qsip.se).

---

## CALLS FOR FUNDING

Quantum-related calls for funding (for more extensive list, please see [here](#))

**European;** Eureka Applied quantum technology, deadline May 9, 2024. Apply [here](#). For additional information, please contact Jeannette Dypbukt at Vinnova.
